

Midpoint Review – July 2020
Borough of North Plainfield

Conditions of Compliance

1. What conditions from the court's approval of the municipal housing element and fair share plan and judgment of compliance and repose (or whatever standard terms is being used), if any, have not yet been satisfied? Explain the reasons for any delay and the steps the municipality is taking to satisfy the condition(s).

The Borough's affordable housing compliance plans are still being evaluated by the Court.

Developments that Are Not Completed

2. For each court-approved inclusionary development project that is not yet constructed, please provide a narrative as to its status and any progress towards construction.

Villa Maria Site

This 14.32-acre site is located in the north-central portion of the Borough of North Plainfield between Grove Street, Somerset Street and Interhaven Avenue and is identified as Block 110, Lots 2.02 through 2.14 on the Borough's tax records. The property is currently developed with multiple vacant buildings and related improvements. It was previously used as a nursing home and rehabilitation facility, which closed in 2002. The oldest buildings on the Villa Maria site were originally constructed in the Nineteenth Century as part of a tuberculosis sanitarium. The site is in an area with established infrastructure and is readily available for redevelopment.

This approximately 14-acre property has also been under consideration for acquisition as open space. However, it would be possible to provide both open space and affordable housing on this property. The North Plainfield Planning Board approved a subdivision a few years ago that created 13 single-family residential lots along Grove Street and one large lot for the remainder of the property. The total area of these smaller residential lots is 2.36 acres (102,758 square feet). Subtracting the lot at the corner of Grove Street and Interhaven Avenue that is already developed with an existing dwelling in separate ownership, the area of the remaining 12 lots fronting on Grove Street is 2.07 acres (90,048 square feet). It is anticipated 13 low- and moderate-income units could be provided on this portion of the site. A redevelopment plan has been prepared for this property that permits residential development and requires the provision of a minimum of 13 low- and moderate-income units. This redevelopment plan is anticipated to be adopted by North Plainfield's Mayor and Council in July 2020.

3. Have any non-inclusionary development projects (including 100% affordable projects, group homes, accessory apartments, market-to-affordable, extensions of affordability controls, etc.) included in the court-approved plan not yet been built/converted to affordable housing/controls extended? If yes, explain how many units, if any, have been built for each non-inclusionary project or mechanism and when construction is expected to be completed on the remaining units.

No.

4. Are there any projects that have missed any construction deadline established in the court-approved Settlement Agreement, or other mechanisms (e.g. market-to-affordable, accessory apartments, extensions of affordability controls) that have not met the completion schedule set forth

in the Settlement Agreement or Housing Element and Fair Share Plan? If yes, what steps is the municipality taking to complete construction and what is the current timetable?

No.

5. Are all unbuilt developments currently in a sewer service area, and if not what has the municipality done to incorporate the site into a sewer service area?

Yes.

Are there any barriers to obtaining water or sewer for any unbuilt site?

No.

Are there any other regulatory conditions (e.g. changes to DEP permits or conditions) that make it not possible to complete any site as originally contemplated?

No.

Rehabilitation Obligation

6. Is the rehabilitation program being administered by a municipality, county, or both?

County.

Do the program(s) include rental rehabilitation?

Yes.

If the municipality has not met at least half of its rehabilitation obligation by this midpoint review, what affirmative steps is the municipality taking to meet the obligation and to facilitate participation by homeowners and/or landlords?

The Borough's spending plan currently under review by the Court states North Plainfield will dedicate \$165,481 from its affordable housing trust fund to its rehabilitation program. The anticipated cost per unit for rehabilitation is \$15,000. Therefore, it is estimated that 11 units will be rehabilitated through North Plainfield's rehabilitation program through 2025.

For Municipalities with a Prior Round and/or Third Round Vacant Land Adjustment (note please make sure any development referenced in the answers to these questions that includes or will include affordable housing is also in the monitoring spreadsheet):

7. If the municipality's court-approved Prior and/or Third Round plan includes Unmet Need:

a. Has there been any development, proposal for development received by the municipality (even if ultimately rejected), adoption of rezoning or a redevelopment plan for of any parcel larger than 0.5 acres since the settlement was approved by the court on a parcel that was neither previously identified in calculating the municipality's RDP nor included in an inclusionary overlay zone?

No.

b. Has any development occurred or been proposed to occur within any inclusionary overlay zone or for which a mandatory set-aside ordinance, if required to be adopted by the municipality, would apply since the settlement?

No.

c. Have any changed circumstances occurred that result in additional parcels becoming available for development that were neither previously identified in calculating the municipality's RDP nor included in an inclusionary overlay zone? If yes, please identify the parcel(s) and describe how the municipality plans to address the changed circumstances.

No.

For Municipalities with a Prior Round and/or Third Round Durational Adjustment:

NOT APPLICABLE

1. GENERAL INFORMATION AND TRUST FUND MONITORING
